Quicksilver Arvor 250

Quicksilver Arvor 250 - A fine example of French marine design, the Arvor 250 blends practicality, seaworthiness, and low maintenance into one appealing package. Powered by a shaft-drive Cummins QSD 2.8 diesel engine with just 840 hours, paired with a Twin Disc Technodrive gearbox, this vessel offers good performance and economical cruising. The roomy wheelhouse provides excellent visibility and comfort, with full headroom in the saloon and two single berths forward. A safe walkaround deck on the starboard side ensures easy movement, while the spacious cockpit, pullout sunshade, rod holders and live bait tank makes fishing a pleasure. Handling is a breeze thanks to the bow thruster and trim tabs, and onboard equipment includes a Simrad plotter/sounder, Uniden VHF radio, compass, and windscreen wipers. Anchoring is made simple with a South Pacific vertical auto/electric chain winch and plough anchor. A gas single burner adds convenience for overnight stays or day trips. This Arvor 250 is a smart choice for those seeking a safe, economical, and enjoyable boating experience. Please contact Rowena Oliver at Vining Gulf Group on 027 667 8797 to view or for more information.
